Discover an American Legacy

New Windsor Cantonment, Orange County

Traveling down the Hudson River, named by Native Americans as Mahicanituck, "the river that flows both ways," you discover people, places, and events that made American history. The cultural, historic, and scenic resources of the Hudson Valley are so numerous, so varied, and so compelling that it's no wonder Congress recognized the Hudson River Valley as a National Heritage Area in 1996. The National Park Service called the region the "landscape that defined America." Its political importance was demonstrated early in our history when the river played a critical role in the Revolutionary War. 🇺🇸

The many streams and waterfalls of the tributaries of the Hudson River powered early sawmills and gristmills. The river and its landscapes inspired the Hudson River School painters. Sublime and picturesque paintings by Thomas Cole, Frederic Church, and Asher Durand depicted this unique American landscape for the world to witness. 🎨 Industrialists and commercial leaders such as William and John D. Rockefeller, Frederick Vanderbilt, J.P. Morgan, and Ogden Mills built their great estates along the Hudson River. 🏠

Extending from Waterford, just north of Albany, to the northern border of New York City, the Hudson River Valley National Heritage Area encompasses more than four million acres. The region is home to seven National Historic Sites, 68 National Historic Landmarks, 133 historic districts, and more than 1,000 sites listed on the National Register of Historic Places. The Hudson River Valley National Heritage Area is managed by the Hudson River Valley Greenway with technical and financial support from the National Park Service.

GOVERNOR
Kathy Hochul

“ *The unprecedented year of 2020 with the COVID-19 pandemic severely impacted our businesses, residents*

and overall economy. During the crisis, the natural and cultural resources of the Hudson River Valley provided recreational opportunities for many New York residents in their own backyards. The Hudson River Valley Ramble connects heritage and recreation, helping to drive tourism, attract visitors, and promote a deeper appreciation for New York's environment and natural resources. The many organizations that contribute to the Ramble's success provide amazing experiences year after year that will be remembered for a lifetime. As one of New York State's gems, the Hudson River Valley is home to some of the most significant historic and cultural sites in the country, and we are committed to continuing to invest and promote in the area as we build back better and stronger.”

The 21st Annual Hudson River Valley Ramble

The Hudson River Valley Ramble is back in 2021! Of course, we had to cancel the event in 2020 due to the pandemic, but we are excited to bring you the 21st Annual Ramble this year. The 2019 Ramble was a milestone event, marking 20 years of guided outdoor Ramble adventures from Saratoga to New York City. Throughout its 21 years, the Hudson River Valley Ramble has celebrated the history, culture, and natural resources of the Hudson River Valley National Heritage Area, as well as the amazing landscapes, communities, and trails across the region.

We are very fortunate to have many returning Ramble event leaders, as well as some exciting new events to entice everyone to get out and explore the Hudson Valley this September.

Whether you are interested in a fun or challenging hike, bike ride, or paddle; an inspiring walk through the grounds and homes of some of the Valley's most notable artists, authors, and great Americans; a trip back in time to experience the significant role the region played in the Revolutionary War; a family-fun festival; or river exploration event, there is a huge variety of events to enjoy!

This year we are not providing a printed guidebook, however, a printable PDF guide is available on our homepage, at: [HudsonRiverValleyRamble.com](https://www.hudsonrivervalleyramble.com)

The Ramble website also features a searchable interface of all the events by region, event type, date, or keyword. You can find directions to each event and contact information for each event leader.

Thank you for spending the last 21 years celebrating this beautiful region with us! We hope to see you at an event this September!

The Hudson River Estuary

Norrie Point. Photo by Chris Bowser.

For nearly half its 315-mile length, the Hudson River is an estuary, an arm of the sea where fresh water from the river’s Adirondack headwaters and numerous tributaries meets and mixes with salty ocean water. From the dam at Troy, the Hudson River estuary ebbs and flows for 153 miles to New York Harbor, creating a rich ecosystem pulsing with life. Its waters and tidal marshes provide habitat for more than 200 species of fish, and nursery areas for key commercial and recreational species including striped bass, American shad, bluefish, and blue crab. Bald eagles, osprey, herons, and waterfowl feed on the Hudson’s bounty while nesting and migrating. Protected by surrounding forest lands, the streams of the estuary’s watershed supply drinking water to millions. The Ramble features estuary-themed events sponsored by the NYS Department of Environmental Conservation’s Hudson River Estuary Program and partners, which are denoted by the Atlantic sturgeon symbol.

STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION (DEC) COMMISSIONER
Basil Seggos

“DEC is excited to proudly partner in this year’s annual

Hudson Valley Ramble, which encourages New Yorkers to get outside and experience our state’s world-class wildlife habitats and recreational opportunities. The Hudson River is an environmental gem, and the Ramble spotlights this region for visitors across the state and the nation, bolstering local economies, which is especially important as New York emerges from the pandemic.”

The Estuary Program leads a regional effort to ensure clean water, protect and restore fish, wildlife, and their habitats; provide education and river access; adapt to climate change; and conserve world-famous scenic views. The program is guided by the Estuary Action Agenda, a forward-looking plan developed with input from communities up and down the river. The Action Agenda’s success comes from partnerships with several agencies, local governments, and regional organizations. For information on the Hudson River estuary, the Estuary Program, and how to partner in this conservation effort, visit: dec.ny.gov/lands/4920.html.

HUDSON RIVER ESTUARY-THEMED SERIES

In celebration of National Estuaries Week, the Hudson River Valley Ramble highlights the wetlands, wildlife, and water resources that make the Hudson a world-famous estuary. The New York State Department of Environmental Conservation’s Hudson River Estuary Program and partners present a series of land and water explorations that will open your eyes to the wonders of “the river that flows both ways.” Estuary events are marked with the sturgeon icon:  Look for the many ways you can explore the Hudson River estuary during the Ramble. Experience the Hudson River estuary up close through boating and paddling events, learning about life along the shore and in the marshes, and exploring the far reaches of the Hudson River estuary watershed.

NATIONAL ESTUARIES WEEK

SEPTEMBER 18-25, 2021

Each year in late September, people across the country celebrate these magical places where fresh water from rivers mixes with salt water from the ocean. Estuaries connect rivers and oceans and are used as spawning grounds and nurseries by at least two-thirds of the nation’s commercial fish and shellfish. Tidal wetlands associated with estuaries protect uplands from coastal flooding and provide habitats for migratory birds. Estuaries also offer recreational opportunities such as swimming, boating, and bird watching. To learn more, go to estuaries.org.

A DAY IN THE LIFE OF THE HUDSON RIVER ESTUARY, OCTOBER 14, 2021

A Day in the Life of the Hudson River Estuary brings schools to the river to celebrate the Hudson and educate participants about our unique estuary. Part of National Estuaries Day, the event is coordinated by the Hudson River Estuary Program in partnership with Columbia University’s Lamont-Doherty Earth Observatory. Each fall, environmental educators team with school classes to collect data that will create an ecological snapshot of the estuary from the Federal Dam in Troy to New York Harbor. For more information, visit dec.ny.gov/lands/47285.html.

The state park system is one of the Empire State’s greatest treasures encompassing more than 250 diverse parks, historic sites, trails, golf courses, boat launches, and more, with 350,000 acres of protected land and water. New York State has recognized the importance of these special public spaces by committing at least \$440 million over the next four years in celebration of the 100th anniversary of the State Park Act. This season we are proud to participate in the Hudson River Valley Ramble once again, showcasing some of our flagship properties and hidden gems. Our Ramble lineup features a wide variety of engaging events and programs, from historic house tours to battle reenactments, guided hikes, walks, nature education, and outdoor adventures. New York’s state parks and sites are the perfect backdrop to explore and make memories with family and friends. COMMISSIONER**
Erik Kulleseid

“The Hudson River Valley offers amazing opportunities to discover our state’s beautiful natural, historic and cultural resources. Last year, the pandemic further highlighted the vital resource that parks provide to our communities, by welcoming a record 78 million park visitors seeking to explore and relax with family and friends. As we celebrate the heritage and recreational opportunities of this region, I encourage all visitors to engage in a variety of events—from a challenging hike or scenic paddle to a historic tour of a home or site—and continue to explore the area throughout the year.”

TRAIL TIPS

1. Look for "Ramble" signs directing you to each trailhead.
2. Wear sturdy shoes: for hikes, an over-the-ankle boot.
No flimsy flats, flip-flops, sandals, or bare feet.
3. Long pants are recommended for walks/hikes in rural terrain.
4. Carry a water bottle.
5. Bring snacks/lunch for hikes lasting several hours.
6. Bring a rain jacket.
7. Stay on the trail.
8. Never get out of sight of the guide.
9. If you have to leave a walk before it's completed, notify the leader.
10. Don't remove any foliage, flowers, rocks, or other items.
11. Carry it in. Carry it out. Leave nothing behind but your footprints.

45 West Clinton Avenue, Irvington 10533
(914) 817-5763

info@armourstiner.com

Visit the only known residence built in the form of a domed, ancient classical temple. Created as a whimsical summer retreat in 1872 by tea-importer Joseph Stiner, this National Historic Landmark's shape was based on the theories of Orson Squire Fowler, a phrenologist, who believed octagonal houses enclosed more space, allowed the sun in at all times, and permitted more views into the landscape. This lyrical home retains its magnificent ornamentation and furnishings and the only remaining Egyptian Revival Room in America with its original decoration and furniture. The 1-hour tour in groups of 12 people is conducted by highly trained docents and includes the three principal floors of the house. 10% discount code for participants of this year's Ramble.

Registration: www.armourstiner.com

Each 1-hour guided tour has a maximum capacity of 12 guests. Tickets can be purchased up until the start time of each tour.

Fee: \$29 for Adults, \$26 for Youth (7-17)

As restrictions in New York State continue to lift, we ask all visitors to wear masks indoors as a courtesy to fellow visitors and staff. We will evaluate and make appropriate changes to these policies in the future.

Duration: 1 hour

Additional equipment: Not suitable for wheelchair users or people with limited mobility. The tour is physically demanding and not recommended for individuals with difficulty walking up and down flights of stairs. Comfortable shoes are recommended.

Not suitable for children under: 7

38. John Burroughs Slabsides Geology Ramble

8/28 9:00AM

John Burroughs Nature Sanctuary

at Slabsides

Burroughs Drive, off Floyd Ackert Rd.,

West Park 12493

(845) 384-6556

info@johnburroughsassociation.org

The rocks were one of naturalist John Burroughs' favorite aspects of the Slabsides location, but even he did not realize that the rocks represented sediments eroded from a Himalayan-scale mountain range nearly 400 million years ago. Since they were deposited in a shallow sea, the sediments were repeatedly caught in continental collisions which bent

them and stood them literally on end. As if that wasn't enough, they were most recently scraped clean by a mile-thick sheet of glacial ice which melted a mere 14,000 years ago. Join Vassar College geology professor Jeff Walker for hike to read the many stories in the rocks of the John Burroughs Nature Sanctuary. The newly developed trails are part of the Hudson River Valley Greenway Trail System.

US SENATOR

Charles E. Schumer

The return of this year's Ramble

reminds us all that, much like autumn, what falls will rise again. Although this past year we've faced unprecedented challenges, our love of the Hudson Valley's unparalleled outdoor activities and breathtaking sites only grew. From fighting to preserve the history, culture, and natural resources of the Hudson River Valley National Heritage Area to championing Walkway Over the Hudson's inception, I've worked ceaselessly to highlight our region's incredible landscape, communities, and trails. In its 21st year, the Ramble will once again welcome thousands of visitors to highlight all that the Hudson Valley has to offer, and I look forward to supporting this celebration in the years to come."

Birding at John Burroughs Slabsides

All visitors to the United States Military Academy are encouraged to tour the Museum to view the oldest and largest diversified public collection of militaria in the Western Hemisphere. The Museum supports cadet academic, military and cultural instruction. Its collections include nearly all aspects of military history and encompass the history of West Point and the United States Military Academy, the evolution of warfare, and the development of the American Armed Forces. Based upon captured British materials brought to West Point after the British defeat at Saratoga in 1777, the Museum collections actually predate the founding of the United States Military Academy. When the Academy opened in 1802, many Revolutionary War trophies remained to be used for cadet instruction. By the 1820s, a teaching collection of artifacts existed at the Military Academy and after the Mexican War (1846 - 1848) West Point was designated by Executive Order as the permanent depository of war trophies. In 1854 the first public museum was opened and today it represents the culmination of more than two centuries of preserving our military heritage.

CONGRESSMAN
Mondaire L. Jones

“The Hudson River Valley is a natural gem in our community.”

Its beauty and history make it one of New York's most significant cultural sites, so I'm thrilled Ramble will be back this year to celebrate it. Not only does Ramble bring new folks in to enjoy the Hudson Valley, but it cultivates interagency relationships within the Hudson Valley to help stimulate the local economy. After a long year, I'm excited that Ramble will help more folks across New York and beyond discover all the Hudson Valley has to offer.”

9/24 10:00AM

Papscaenee Island Nature Preserve
Staats Island Road, Castleton 12033
(518) 270-2888

ashaughnessy@renesco.com

Led by David Chinery from the Cornell Cooperative Extension, enjoy a 1-hour walk through the Papscaenee Island Nature Preserve and discover the various species of plants and animals that make the 156-acre Preserve and Hudson River shoreline their home.

Cottonwood trees, buckthorn shrub, and bittersweet vine reflect the history of the land farmed by the Mohican Indians for thousands of years. The preserve also boasts a variety of habitats, including marsh, river bank, and floodplain. This riparian setting is a pristine example of nature reinventing itself. Over 30 acres of the preserve are still farmed today, giving the land the distinction of being under active agriculture (corn) longer than any other lands in the U.S. Over six miles of hiking trails offer public access to over 2 miles of Hudson River shoreline. From 9J, turn Right at Preserve South Entrance sign onto Staats Island Rd.; go .25 mi. cross Amtrak tracks, right into Preserve parking lot.

Notes: Trails are relatively flat with some uneven surface and slight ascents/descents, exposed tree roots and limbs.
