The Hudson River Valley Greenway (HRVG) invites qualified professional photographers to submit quotes for photographic services to support the 25th Annual Hudson River Valley Ramble ("the Ramble"), taking place from August 30 to September 30, 2025.

The Ramble is an annual event series that celebrates the history, culture, and natural resources of the Maurice D. Hinchey Hudson River Valley National Heritage Area, as well as the distinctive landscapes, communities, and trails found throughout the region. Further information about the Ramble is available at: <https://www.hudsonrivervalleyramble.com/ramble>

Scope of Services:

Selected contractors will be responsible for photographing a range of events across the Hudson River Valley during the specified time frame. Assignments will include travel to and between event locations and likely will require overnight stays.

Event selection will be coordinated collaboratively between the photographer and HRVG, with consideration given to weather conditions and potential cancellations. Photographers must independently manage their schedules in coordination with event sponsors and HRVG.

Certain events may require moderate physical activity, including walking, hiking, cycling, or paddling. HRVG and event sponsors will not provide equipment for participation; photographers must provide their own equipment when necessary.

Deliverables:

- A minimum of 15–20 professionally edited images per event (unless otherwise agreed)
- Drone footage (still images and video), where applicable
- All media files must be delivered within 14 days of each event, or as agreed upon
- Digital files should include:
 - High-resolution print-quality images (PNG format)
 - Web-optimized images (JPEG format, 100 dpi)
 - Clear organization by event name and date

All photographs and video content produced under this agreement will become the property of HRVG. Photographers will be credited in all uses. By submitting a proposal, photographers grant HRVG a perpetual, non-exclusive, royalty-free license to utilize all submitted media for marketing, promotional, and informational purposes across print and digital platforms.

Drone Requirements:

Photographers must possess a valid Remote Pilot Certificate in accordance with the FAA's Small UAS Rule (Part 107). All drone operations must comply with applicable federal, state, and
